

We have seen the user requirements. We found two types of users:

1. Individual Consumer
2. Bank Administration

In the Individual section, we got some features, which are,

- i. View their Balance
- ii. View their Transaction by date
- iii. Transfer money between their own different account types
- iv. Add new Payee
- v. View payee
- vi. Payment to someone who is not in the list
- vii. Exit

And for Bank Administration, we also got some features:

- i. Create New Account
- ii. Transfer money from an existing account to another existing account
- iii. Withdraw money from existing account
- iv. Print all existing accounts
- v. Exit

-----Thank You-----
